A DATA STRUCTURE AND FILE STRUCTURE PROJECT

BRIEF DESCRIPTION

A Project by Anay Khator, Ansh Arora and Piyush Mehta

This Project Uses Linked Lists to access and get Data from user/Administrator and Text Files are used to Store data in Hard Disk Drive so it can be used in near Future.

FUTURE SCOPE OF THE PROJECT

This Project can be used by Airline companies or Ticket Merchants to easily access and view the flights available.

Acknowledgement

We would like to thank Mrs. Rajeshwari to give us such a great opportunity to work together to make this project a success.
